because most people and their countries seek wealth and power and because money and credit are the biggest single influence on how wealth and power rise and decline if one does not seek knowledge of how money works one cannot understand the biggest driver of politics within and between countries hence one cannot understand how the world order works if one doesn't understand how the world order works one can't understand the post pandemic debt tsunami that's coming i believe that the times ahead will be radically different from the times we have experienced so far in our lifetimes it is indeed quite astonishing that money ever present in our lives is so poorly understood even by many economic experts themselves this incomprehension stems from the deliberate efforts of the financial

sector to obscure its activities in order to maintain its omnipotence this book seeks to address this crisis of ignorance by providing an easily understood and comprehensive understanding of money in the hope of empowering people against finance's grip over their lives and those of their society the digital revolution post pandemic will lead to a radical departure from the traditional model of monetary exchange the creation of a digital financial market infrastructure will underpin the unbundling and re bundling of the functions of money within society although digital money itself is not new to modern economies digital legal tender dlt which exists without any ledger or central bank will facilitate instantaneous peer to peer transfers of value in a way that today is impossible the importance of digital connectedness will often supersede the importance of macroeconomic links and lead to the establishment of digital financial markets linking the currency to membership of a particular financial market rather than to a specific country capitalism underpins wealth generation and hence the existence of a free digital financial market this book seeks to transform money into a digital currency which supports a more equitable access to capital and ensure its convertibility into a universal world currency unit as digital legal tender digital currencies without borders may also cause an upheaval of the international monetary system countries that are socially or digitally integrated with their neighbours may face digital dollarization and the prevalence of systemically important platforms could lead to the emergence of digital currency areas that transcend national borders digital legal tender within a multiplicity of currencies ensures that money as a public good remains a relevant medium of exchange which achieves payment finality to all transactions additionally the universal supranational currency the world currency unit is defined to support the global transfer of value between any two people on the planet today without the need for any treaties or financial service intermediaries universal access to capital which is readily convertible to globally trusted units of account combined with a censorship resistant means of payment underpins global trade will improve market access for holders of low per unit value producers and consumers in developing and developed countries the vision is a borderless global market underpinning universal wealth creation which never closes this book defines the universe of discourse domain and hence creates a shared conceptual

schema or language within which to communicate and deploy a digital currency to achieve universal legal finality to all financial transactions

recently american youth have demonstrated en masse about a variety of issues ranging from economic injustice and massive inequality to drastic cuts in education and public services youth in revolt chronicles the escalating backlash against dissent and peaceful protest while exposing a lack of governmental concern for society's most vulnerable populations henry giroux carefully documents a wide range of phenomena from pervasive violent imagery in our popular culture to educational racism censorship and the growing economic inequality we face he challenges the reader to consider the hope for democratic renewal embodied by occupy wall street and other emerging movements encouraging a capacity for critical thought compassion and informed judgment giroux's analysis allows us to rethink the very nature of what democracy means and what it might look like in the united states and beyond

the modern day financial crisis and scam is nothing really new reveals master researcher joseph p farrell in babylon's banksters banking has been tinkered with and controlled for the past thousand years of human history see how a seductively simple formula devised by a large and powerful chinese family led to the credit default swaps bust read how astrology and a fascination for gemstones played into the banking operations of the super rich what are the long term goals of the most powerful international cabals in this latest installment of his remarkable series of books of alternative science and history joseph p farrell outlines the consistent pattern and strategy of bankers in ancient and modern times their desire to usurp the money creating and issuing power of the state substituting a facsimile of money as debt here farrell peels back the layers of deception to reveal the possible deep physics that the banksters have used to aid them in their financial policies
