arguing that a new atheism driven largely by darwinian objections to god s existence has limited debate to a scientific framework the atheist s primer reinstates the importance of philosophy in the debate about god s existence and in so doing recovers the distinguished philosophical tradition of atheism which dawkins and others have obscured beginning with the ancient greeks and culminating with hume michael palmer provides the philosophical framework on which scientific objections to theism are hung he explicates and comments on the thinking behind atheism discussing issues such as evil morality miracles and the motivations for belief although delving deeply into epistemological concerns emphasising the disheartening limitations of man s capacity for knowledge and our materialist dependencies palmer concludes on a positive note arguing alongside nietzsche marx and freud and many others that happiness and personal fulfilment are to be found in the very materialism that religious belief rejects an eloquent abridgment of his previous work the atheist s creed which was aimed at the educational market the atheist s primer is written in fluent and concise prose making it an accessible introduction for the general reader

the atheist s primer is a concise but wide ranging introduction to a variety of arguments concepts and issues pertaining to belief in god in lucid and engaging prose malcom murray offers a penetrating yet fair minded critique of the traditional arguments for the existence of god he then

explores a number of other important issues relevant to religious belief such as the problem of suffering and the relationship between religion and morality in each case arguing that atheism is preferable to theism the book will appeal to both students and professionals in the philosophy of religion as well as general audiences interested in the topic

hurray for michael palmer is how michael martin the distinguished american philosopher greeted palmer s the atheist s primer litterworth 2012 atheism for beginners by providing a coursebook for schools and colleges differs from its predecessor in being designed specifically for teachers and their students yet although different in focus and format the intention remains the same to reinstate the importance of philosophy within the debate about god s existence and to act as a corrective to the largely darwinian criticisms levelled against religious belief by richard dawkins and the so called new atheists so in palmer s lively history of atheism extending from the ancient greeks to the present day we meet the enduring philosophical arguments against god and the great literature in which they are expressed atheism for beginners is user friendly and presumes no special grounding in philosophy throughout assistance is given by numerous aids to learning there are exercises marginal notes essay questions bibliographies and a glossary also provided are fourteen short biographies of famous atheists in these respects palmer follows the format first presented in his widely read moral problems of 1991 long established as a core text in the teaching of philosophy in atheism for beginners palmer covers the main atheistic arguments discussing issues such as creation morality evil miracles and the motivations of belief particular attention is paid to the work of hume marx nietzsche and freud with a special chapter devoted to the development of disproof atheism is often criticized for being unduly pessimistic that without god there is nothing to look forward to no life after death no final righting of wrongs and no hope of salvation but this palmer argues is a slander against the atheistic outlook he concludes therefore on a positive note explaining that happiness and personal fulfilment are to be found in the very materialism that religious belief rejects

atheists may be among the fastest growing religious demographics in the world but they are also perhaps the most misunderstood to begin atheists have no identifying marks no defining habits no obvious symbols for all that unites them essentially is an absence of belief as a result many religious believers may not even realize they know atheists whether as neighbors friends or coworkers in addition most major religions warn against the faithless and preach distrust of nonbelievers this creates not only ignorance about what it's like to be an atheist but also fear about the very idea of atheism organized like an encyclopedia this book aims to rectify this widespread distrust and suspicion with basic understanding each entry written in clear concise language covers a specific topic or question related to being an atheist making this the perfect primer for anyone curious about or interested in atheism whether to learn more about why someone might become an atheist how someone creates meaning and purpose as an atheist and what life is like as an atheist

one of the new york times s anticipated books of february what can i know what must i do what may i hope national book award longlisted author christopher beha recounts his struggle with these questions while making an earnest appeal for readers to seek out answers of their own twenty five years ago celebrated author and cradle catholic christopher beha gave up on god helped along by a reading of bertrand russell s classic text why i am not a christian he became a committed atheist certain that his days of belief were behind him a youthful brush with mortality soon set beha on a decades long quest for meaning in a godless world why i am not an atheist tells the story of this search for secular answers to what immanuel kant called the most urgent human questions what can i know what must i do what may i hope along the way beha traces the development of what he understands to be the two major atheist worldviews scientific materialism and romantic idealism beha s passage through these rival forms of atheism leads him to the surprising conclusion that faith particularly faith in a created order in which each human life has a meaningful part preserves the best of both traditions while offering a complete and coherent picture of reality this magisterial investigation of the heights of human intellectual achievement is at once deeply personal and universal grounded in decades of reading and thinking about the problems of suffering mortality and ultimate meaning why i am not an atheist is not a polemic on behalf of belief but a record of beha s long engagement with the enduring human questions and a call for readers to take up these questions for themselves

overview all volumes of the equilibrium texts are primers their only objective is to prime the pump not fill the bucket that s the reader s challenge and responsibility this volume on gd is the culmination of fifty years of reflection introspection and experience that brought about this treatise concerning god it is the author s concentration on the subject of religion that was brought about by three non eventful interactions that led him to develop the equilibrium texts in general and this volume on gd in particular the first was his mother s unclear and unfulfilling answer to the question what s the purpose of religion her response was it s a way of life the second was his english teacher s snide remark in response to his assigned written philosophy about god my aren t you being superior to judge and the third was from a catholic navy chaplain in response to two questions do you believe that god is a being he answered no then why did you deliver a sermon as if he was his response was because it s the only form of language that some people understand it was due to these three semi related encounters that stimulated the endeavor to discern what significance the concept of god held this work leads from god to g d to gd the culmination of the search for gd s cosmological meaning

the culmination of kärkkäinen s multivolume magnum opus this fifth and final volume of veli matti kärkkäinen s ambitious five volume systematic theology develops a constructive christian eschatology and ecclesiology in dialogue with the christian tradition with contemporary theology in all its global and contextual diversity and with other major living faiths judaism islam buddhism and hinduism in part one of the book kärkkäinen discusses eschatology in the contexts of world faiths and natural sciences including physical cosmological and neuroscientific theories in part two on ecclesiology he adopts a deeply ecumenical approach his proposal for greater christian unity includes the various dimensions of the church s missional existence and a robust dialogical witness to other faith communities
